BrightPath Tech — Supplier Proposal

Executive Summary

BrightPath offers a low-cost, rapid implementation for the procurement programme.

Proposed Solution

The proposed hosted portal includes standard workflows and CSV imports. Integration will be confirmed during discovery.

Implementation Plan, Team, and Milestones

An eight-week timeline covers configuration, user acceptance testing, and launch. The team has a project lead and two implementation consultants.

Commercial Proposal

Item	Amount
Implementation	$165,000
Annual support	$36,000
Assumption	Standard connectors are sufficient

Security, Compliance, and Risk Controls

The platform uses encrypted connections and routine backups. Detailed certification, privacy, audit-log retention, and incident response information will be supplied later.

Support, Experience, and References

Business-hours email support is included. BrightPath has delivered two smaller implementations; references are available on request.
